

all the light at the end of your fingers

France Lampes, a familial company, has been founded in 1997 by the present manager, Emmanuel MENIN in association with Benjamin MENIN, thanks to their own paid-in capital.

First situated near Paris, the company approached the neighbouring firms, which involved a quick development.

Afterwards, to take advantage of the "web-wave", a home-made website has been created to order easily and quicker. Nowadays, this site has progressed very quickly and become one of the web-leader in this field.

In 2003, the company and its registered offices have been transferred to the present address. Indeed, the activity due to the e-business increased so much that it became the main activity. It wasn't necessary to be situated near the chief town.

Nowaday, France Lampes is considered as a specialist concerning lights and bulbs and sales all over the world wellknown brands in each category : OSRAM, Philips, Radium, Sylvania, GE Lighting, Girard-Sudron, Eye, Paulmann, Omicron, Theimer, Ushio, BLV, Aurora, Obsta, Aric, Riva, Narva,...

Propelled thanks to the development of the e-business and the in-line-settlement, France Lampes trades with customers as differents as companies (60%), private individuals and estate administration. France Lampes provides specifics bulbs to the french Laboratory of Research as well (CNRS, INRA, CEA,..)

Experience

For now more than 20 years, France Lampes allows its customers as differents as private individuals, industrialists, estate administrations, craftsmen... its know-how, its ability and its quick reaction.

Reliability

Thanks to a network of reliable european providers, France Lampes offers produces that prove themselves, descended from the greatest brand, with the best quality/price ratio.
